

PAINTING PROCESS TIMELINE

1

Schedule your estimate! Call our office or send in a web form and we'll have an estimator meet with you to discuss your project.

2

During your estimate, our estimator will determine your needs for your project, make product and process recommendations, and consult over colors if needed. We will then quickly present you a proposal.

3

Next steps: If we haven't heard from you, don't be surprised when we follow up! We like to make sure we can hit projected timelines and keep your project top of mind.

4

Once you decide to move forward with us you will authorize the proposal and make a 50% deposit. We will then move your project into the production que. In the meantime you will be selecting colors and turning them in for HOA approval if required.

5

Once your colors are approved, let us know. Our production manager will call you to schedule dates for your project to begin.

6

Day of project, our crew and project manager will arrive on site and on time to begin your project. Our crew will stay on your project and your project only until it is complete.

7

Once your project is completed, our project manager will do a walk through of the job. We will complete any touchups we find, then do a final walk through with you.

8

When you are 100% satisfied with your project, we will ask for and collect final payment.

9

We will ask you to write us a Google review. These are very important and much appreciated. We will remind you of our customer referral program, as well as share tips on how to maintain your paint job.

10

We will not be strangers. We will stay in touch, wish you a happy paintversary and check in to make sure your home is looking beautiful for years to come!
